

Health and Safety

Does your business meet the requirements of health and safety legislation? If it doesn't, then your insurance may be invalidated and your directors liable to prosecution!

Yakkety-Yak can provide cost effective Health and Safety services. These services are designed to support your business in conforming with health and safety legislation and other commercial obligations such as client auditing and tendering. All of our Health and Safety team are competent. This means that they have suitable experience, training and qualifications. All are either full members or corporate members of IOSH, guaranteeing their competency in this well respected safety organization.

We offer the following services:

HEALTH and SAFETY ADVISORS and SAFE SYSTEMS of WORK

We can provide independent, fully qualified, competent safety professionals to assist you with the creation or the maintenance of your Safety management system. Our statement of competency is enforced by only using Registered Safety Professionals (RSP) with the Institute of Occupational Safety and Health (IOSH). This assistance with your Safety management system will include Inspections of the worksite with the frequency decided by you. These

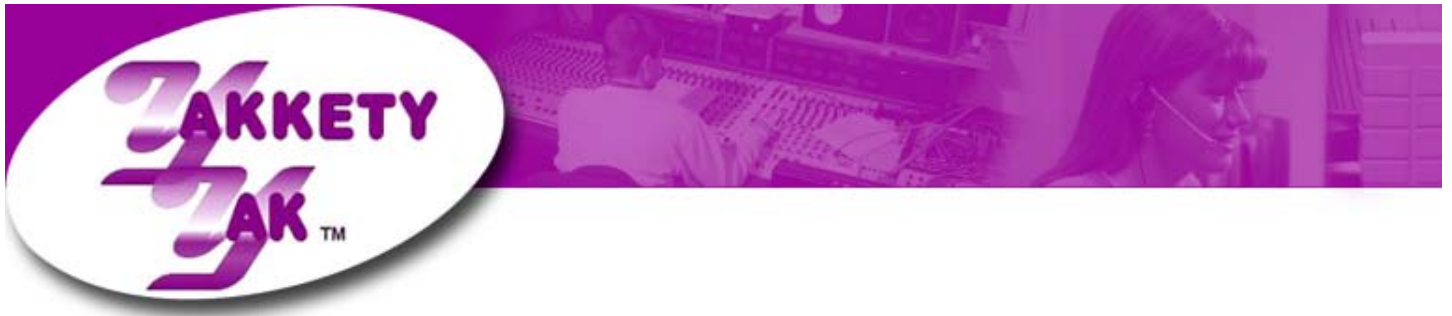

advisors will work with you to ensure you comply with the law and ensure that the systems you have in place are suitable and sufficient.

Our Safe systems of work are designed around your company. We ensure that you operate effectively and safely as a business, as the two go hand in hand. As we cannot possibly know what you want, we keep safety simple. You tell us, and we will put it into place.

ASSESSMENTS

We offer a wide array of Safety Assessments. These are completed by competent assessors and cover a wide arrange of topics. We also understand that these assessments must be kept updated by law, and as such we also have a renewal procedure whereby all of your assessments are reviewed and updated on a timescale of your choosing. Our assessments include, but are not limited to:

- Disability Discrimination Act (DDA) Guidance for Compliance (1 Oct 2004)
- VDU
- Risk Assessment
- Fire Risk Assessment
- Manual handling
- COSHH
- Lifting Operation
- PUWER
- PPE
- Ergonomics.
